

Technology Platform

PROTAC®	Flow Chemistry
Oligo & Conjugation	Electrochemistry
ADC	Photoredox
Chemistry AI	Catalyst Screening
Quantum Mechanics	Biotransformation

Specialty Chemistry

Carbohydrate Chemistry	Fluorescent Bio-probe and Labeling
Material Science	Nucleoside/tides
OLED and Polymer	Steroids
Macrocyclic Chemistry	Agricultural Chemistry
Boron Chemistry	DPC
Deuteration Chemistry	Fluorine Chemistry
Lipids	Late Stage Functionalization

International Discovery Service Unit (IDSU)

Global Leader in Discovery Chemistry
Outsourcing Service Based on FTE
(Full Time Equivalent) Model

Bringing Capabilities, Capacities and
Value to Meet Drug Discovery Needs.

Customization to Client's Needs

Synthetic Chemistry

High productivity, quality, speed, and reliability

Project Management

Manage project timelines and compound flow

Medicinal Chemistry

Provide compound design and project management

Integrated Projects

From targets to hits to leads to preclinical candidates

International Discovery Service Unit (IDSU)

A Global Resource for Small Molecule Research & Development

7

6 sites in China: Shanghai R&D headquarters, Shanghai HDB, Shanghai North, Tianjin, Wuhan and Chengdu

1 site in US San Francisco Bay Area

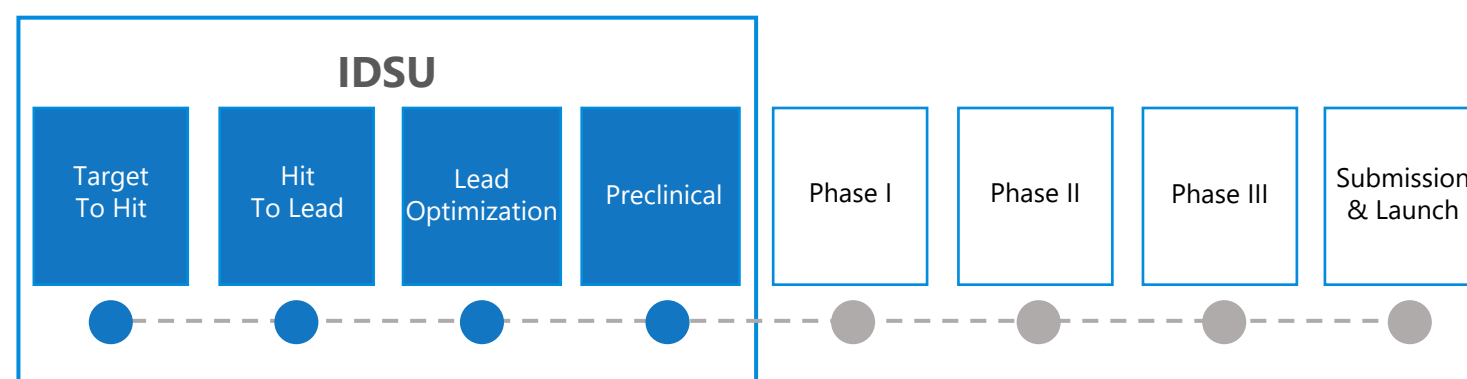

400+

clients around the world

206,900+

compounds delivered in 2020

Enable Discovery Stage of Drug Research
