CAR-T&TCR-T

HD Biosciences

Shanghai · San Diego · Cranbury

Together, We Deliver

Your Biology-focused Drug Discovery Enabling Partner

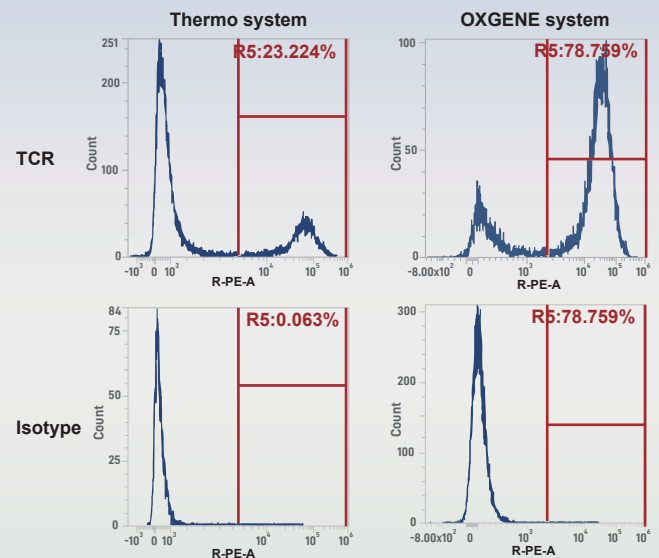

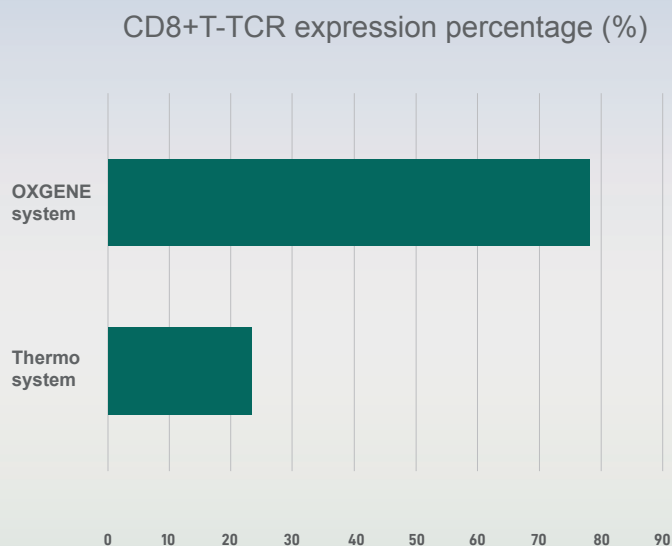

HD Biosciences Co., Ltd.

Integrated Platforms To Accelerate CAR-T/TCR-T Programs

- Comprehensive target validation program
- OXGENE based target expression system ensure high-efficiency delivery
- Systematic in vitro functional & safety assays
- In vivo efficacy studies
- Well-established genomic editing technology in primary immune cells

Achieved Around 80% Expression Percentage Using OXGENE System

Shanghai, China

590 Ruiqing Road, Pudong, Shanghai, China
