

Immunology platform

- Comprehensive range of immunology assays
- Advanced laboratory tools and analytical methods
- Experienced professional team
- Support IND filing

A deep understanding of immunology, providing fully validated and reliable method development

50+ dedicated scientists specialized in immunology assays

10+ years experience
Delivered 200+ projects in 2022

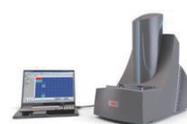

Bio-Plex200

Cytex Aurora

AID Elispot Reader

MSD-SQ120

PE-Envision

BD FACS Aria III

Immunology assays

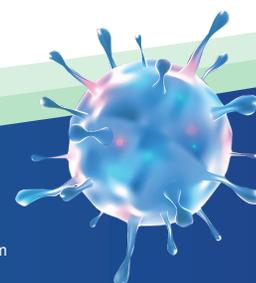

Categories		Assays
Binding & blocking	Biochemistry	HTRF, ELISA, AlphaLISA
	Biophysics	SPR (Biacore), MST, DSF and nanoDSF
	Cell level	Flow cytometry
Immune cell activation		T cell activation & proliferation & cytokine
		B cell activation
		NK cell activation & proliferation & cytokine
Immune cell suppression		MDSC suppressive assay
		Treg suppressive assay
Immune cell polarization & differentiation	T cell polarization	Treg
		Th1
		Th2
		Th17
	Macrophage differentiation	M1/M2 macrophage
	DC maturation	MDSC
Antigen presentation (mixed lymphocyte reaction, MLR)		DC differentiation
		DC co-culture with T cells
		Mouse allogenic splenocytes
<i>in vitro</i> cytotoxicity	T cells	Antigen specific killing assays
	NK cells	NK-92 induced cytotoxicity
		Primary NK cell induced cytotoxicity (ADCC)
	Macrophage	Antibody-dependent cellular phagocytosis (ADCP)
	Complement	complement-dependent cytotoxicity (CDC)
