

Dianthus Platform | PIK3CA – PIK3R1 (wt)

Ready to Go Assays • Customizable • Cost-Effective • Fast Turnaround Time

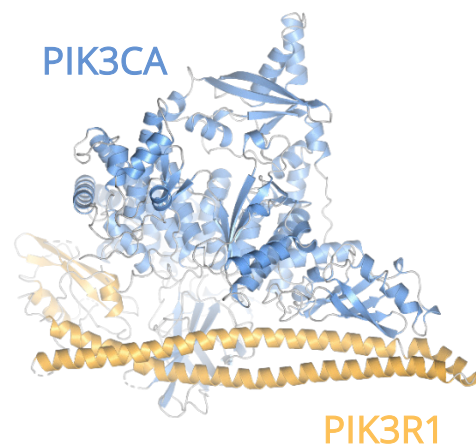

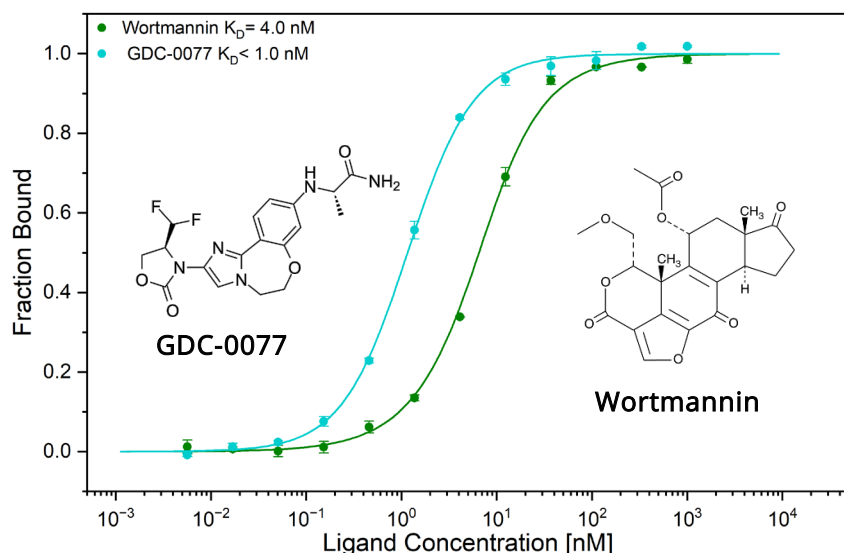

Combining Ready-To-Go Assays with Dianthus Spectral Shift Technology to Accelerate the Discovery of PIK3CA-PIK3R1 Inhibitors

Spectral Shift Technology

- Low sample consumption
- High throughput screening
- In solution binding affinities

GDC-0077 and Wortmannin binding to PIK3CA-PIK3R1
