

# Dianthus Platform | SIK3

Ready to Go Assays • Customizable • Cost-Effective • Fast Turnaround Time

## Combining Ready-To-Go Assays with Dianthus TRIC Technology to Accelerate the Discovery of SIK3 Modulators

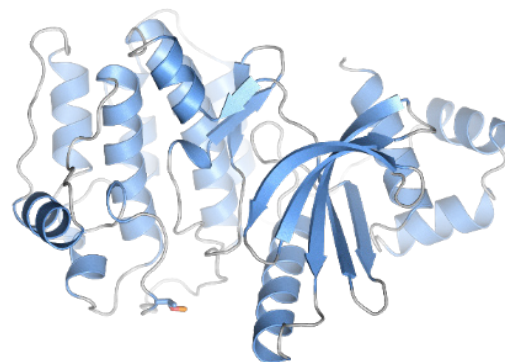

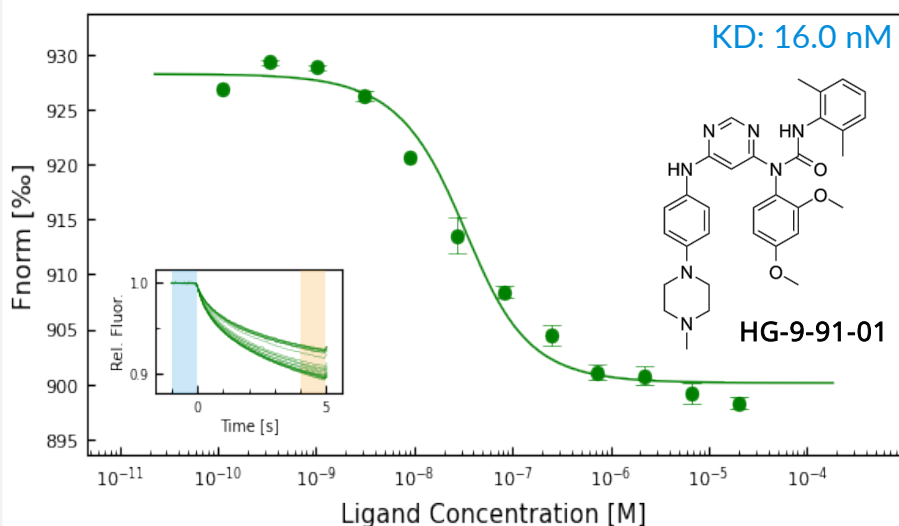

### Temperature-Related Intensity Change Technology

Sensing TRIC  
Temperature Related Intensity Change

- Low sample consumption
- High throughput screening
- In solution binding affinities

### HG-9-91-01 binding to SIK3

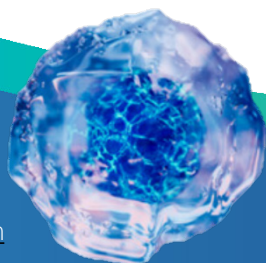

SIK3
